LUTZ HORIZONTAL

Technical Rider Project KAAY

This rider represents our current needs. Nevertheless this could change over time, as we are at the beginning of our process. In general, we don't need much :)

1. A good sound system to which Max can connect with a XLR cable
2. Ideally dance floor
3. A free and flat space of around 8m x 10m (can be smaller if needed)

That's it!

We are very flexible with this production. Little details might add upon these needs. We will keep you up to date! In case you have any questions, don't hesitate to contact us:
